EXPERIENCE

AI Automation Apprenticeship · Venxura (AI SEO Tool) *Aug 2026 – Oct 2026*
USA · Remote

- Identified and resolved logic and integration bugs in the platform's Node.js-based AI automation workflow.
- Collaborated asynchronously with a distributed team, delivering fixes against a real production codebase.

Web Developer Intern · Reamarc (Digital Solutions) *Feb 2026 - Apr 2026*
Islamabad · Hybrid

- Built & customized WordPress sites, adding AI chatbots and automated workflows for lead routing and email notifications.

Junior Backend Dev · WalnutBloom (Educational Agency) *May 2024 – Sep 2024*
Islamabad · Remote

- Deployed and customized a phpBB community forum: server config, plugin setup, and role-based user permissions.
- Migrated 200+ quiz items from iSuite to phpBB with zero data loss, cutting re-entry time by ~81%.

Web Developer Intern · Unique links (Web Hosting & Development) *Sep 2018 - Feb 2019*
Islamabad · Hybrid (Pre-University)

- Automated CMS email/SMS workflows and invoice generation in WHMCS to reduce manual admin time.
- Managed WordPress installations, file ops via FileZilla/PuTTY, and executed recovery for 10+ hacked websites.

PROJECTS

Smart Energy Monitor - IoT + AI Capstone *Aug 2025 – Sept 2026*

- Built cloud backend with authenticated REST APIs to ingest real-time IoT telemetry; implemented data integrity checks to prevent spoofing.

Tech: *Python, Node.js, Cloud Backend, IoT, REST API*

WhatsApp Restaurant Chatbot *2024*

- Built a WhatsApp ordering bot with Node.js/Express.js; integrated Google Sheets as a zero-cost structured backend.
- Implemented input validation & rate-limiting to protect webhook endpoints on Railway; handled menu queries, order placement, and async API responses end-to-end.

Tech: *Node.js, Express.js, Google Sheets API, Ultramsg, Railway*

Consumer & Service Provider Web Platform *2023*

- Developed a marketplace with listing pages, search/filter & workflows using vanilla JS front-end and WordPress CMS.

Tech: *HTML, CSS, JavaScript, WordPress*

SKILLS

Backend	Node.js, Express.js, Next.js REST APIs, PHP, FastAPI,
Frontend	Html, CSS, JavaScript, WordPress, UI/UX Wireframing,
Databases	MySQL/SQL, Google Sheets API, phpBB, Firebase
DevOps / Cloud	Azure Fundamentals, Git, Railway, Vercel, FileZilla, SSH
AI / Automation	Python, Agentic AI, n8n, LangGraph
Other	C++, PowerShell, Bash, IoT integration

EDUCATION

- SZABIST - BS Computer Science *2022 – 2026*
- Roots IVY International - A-level GCE *2018 – 2022*
- Beaconhouse - O-level GCSE *2015 – 2018*

CERTIFICATIONS

- Microsoft Security Analyst (in progress) *2027*
- Fortinet NSE 1 - Network Security Awareness *2026*
- Google Dev Groups - Workflow Automation & Gen AI SDK Hands-on Workshops *2025 – 2026*
- Microsoft Azure Cloud Fundamentals Certification *2024*
